

2022 Quality Progress Report

Caressant Care Listowel

March 2023

Caressant Care Nursing and Retirement Homes Ltd.

Brief Summary of Quality Improvement Achievements fiscal year 2022:

Building and Environmental Improvements:

Air conditioning has been provided in all resident bedrooms. We also had additional building and capital improvements such as:

1. Purchased 26 new bathroom vanities for all resident rooms.
2. New bariatric and high low beds
3. New resin handrails
4. Hepa Filters throughout the home
5. Window shades for dining rooms and office

Clinical Programs:

The following clinical programs were revised and rolled out last year: Skin and Wound Program, Plan for CPR (Advanced Directives) and Palliative Care. Further enhancements to the medication management program included the re-implementation of secured conversations and phase one of e-prescribe in Point Click Care (PPC) to support safer medication administration practices.

Communication and Technology:

Caressant Care continues to update and restructure our online learning management system to ensure required education modules are available and current. In 2022 we transitioned to a new electronic policy software platform with improved search functions and the ability to quickly update and revise if necessary, which provides a user-friendly system for team members.

We have altered our communication strategy with more mobile devices, so we were able to connect residents and people of importance to them virtually. We continue to encourage the use of virtual technology and software to participate in Communities of Practice both internally within Caressant Care and externally with our community partners.

We have also purchased additional iPads and iPhones for residents' use.

Compliance and Conformance

The corporation continues to manage any areas of non-compliance through our centralized reporting system. Further enhancement to this system included the sharing of “Compliance Communication Tip” sheets for all departments in the homes. Caressant Care continues to support a learning environment as it pertains to compliance by sharing information about inspections with all homes through our Compliance Key Messages program.

Infection Control:

Caressant Care recognizes the correlation between infection control practices and keeping our residents safe. Based on lessons learned during the height of the COVID-19 pandemic and the implementation of the Fixing Long-Term Care Act, 2021, our Pandemic Plan and several IPAC policies were reviewed and revised. Additionally, Caressant Care has supported the introduction of dedicated IPAC leads. The re-implementation of the IPAC Module in PCC along with the development of various corporate tracking tools has now allowed for homes to begin trending and analyzing of IPAC data.

Resident and Family Experience:

Surveys are completed throughout the year, and summarized semiannually with results returned to the home, to be communicated and reviewed for improvement initiatives. This process supports a nimble turnaround time for actionable items.

We had some positive results indicating a high level of satisfaction with areas on the Resident Satisfaction Survey, Some examples are below of what our residents told us:

- ✓ Residents get the incontinence products they need – 75%
- ✓ Residents feel privacy is respected – 83 %

Families additionally had positive feedback in many areas, some examples are:

- ✓ Staff engage in friendly conversation – 80%
- ✓ Families feel they get the health services for their loved ones – 80%

Based on feedback received from family members we have revised our Satisfaction Survey process to indicate no response if families are unable to answer due to communication issues or a diagnosis of dementia or Alzheimer’s.

Quality Program

Our electronic software documentation system has revised their quality program “Insights” which can expedite report options and help to create reports that can be shared and discussed.

We have revised and updated many of our policies, education packages, program audits and operational audits to reflect and improve quality practices and to align with the Fixing Long-Term Care Act and regulations.

Please see attached for our priority Quality Improvement Initiative Progress Report for 2022

Theme III: Safe and Effective Care | Safe | Priority Indicator

	Last Year		This Year	
Indicator #1	27.21	10	27.14	21.40
Percentage of LTC residents without psychosis who were given antipsychotic medication in the 7 days preceding their resident assessment (Caressant Care Listowel Nursing Home)	Performance (2022/23)	Target (2022/23)	Performance (2023/24)	Target (2023/24)

Change Idea #1 Implemented Not Implemented

Residents will be provided with medications appropriate to their diagnoses and to promote safe care outcomes this indicator will be monitored and reviewed.

Target for process measure

- The home will endeavour to reduce % LTC residents without psychosis who were given antipsychotic medication to 10 % by the end of 2022.

Lessons Learned

Changes were implemented as planned, although the home did not meet the target, we are currently less than 6 % above the indicated provincial average.

Comment

This will remain a priority quality improvement initiative plan for 2023 with a revised target and increased focus.
